COMMENDABLE BRAVERY.

We do not appreciate foolhardy daring. In fact such a disposition we despise, but when we see a person exhibit bravery for some noble purpose, we admire him. He is a hero that will risk his life for other's good. Such a one is Paul Boynton, the man who has invented the swimming suit, in which it is impossible to get drowned. This has long been a great need among travelers. They have felt their insecurity in case of fire or shipwreck, because of the absence of the some life preserving apparatus. Mr. Boynton has invented a machine that will enable a person who dons it to lie down on the stormy billow and go to sleep as securely and safely as in his own couch. He can also take water and provision with him for several days' use. Mr. B. is very anxious to get the great invention well known and is now undergoing severe tests to show its efficacy. Our dispatches tell of another of his exploits. Paul Boynton is a hero who is doing much for navigators.

HARD WINTERS.

As we have been having an unusually mild Winter, we append the following list of hard ones in order to show what might have been: In 491 and 763 the Black Sea is said to have been frozen over. In 822 the principal rivers of Europe were all frozen. In 860 the Adriatic was frozen. In 991 the crops were a complete failure, owing to the cold weather. In 1067 the roads in Germany were impassible, and hundreds of people froze to death. 1184 the Po was frozen to its mouth. 1236 the Danube was frozen, it is said, to the bottom. In 1316 the crops failed in Germany, and in England wheat rose from 6s to £2 a quarter. In 1783 the Thames froze eleven inches. In 1709 the ground froze in England to the depth of nine feet. In 1716 a fair was held on the Thames. In 1741 snow covered the ground from the 13th of November until April to a depth of several feet, and Long Island Sound was frozen. In 1816 there was no Summer, to speak of, in America, the crops failed and snow fell every month. In 1836, hundreds of early settlers in Illinois froze to death. In 1836 extreme cold weather prevailed as far south as the Carolinas.

THE BLACK HILLS.—A Washington telegram of the 4th says: The Sioux Indian delegation consisting of Red Cloud, Spotted Tail, and other chiefs are expected to arrive here by the 1st of May at the latest, and perhaps as early as the 20th of April, when negotiations for the opening of the Black Hills country will begin. The geologist appointed by the Interior Department is to make a survey at Cheyenne April 15th. The excitement relative to the organization of mining parties has abated considerably, and there is no apprehension here of serious trouble in protecting the Indian reservation and maintaining the treaty. The excitement is chiefly fermented by traders and transportation agents. Several car-loads of miners' supplies and outfit has been sent west for the Black Hills to rail with and this is the basis of half the stories about gold in the Black Hills.

The contents of the stomach of a trout weighing forty pounds lately sent from Michigan to Washington, in New York, were found to consist of eight distinct fishes, six of which measured twelve inches in length each, making a total of seven feet four inches of fish in a trout forty-three inches long. The eight lay side by side, the heads and tails being partly digested.

A greenhorn from the country who don't read the papers was asked the other day what he thought about the Tilden-Bosch scandal. We are ker-oosed down in that way, the verdant innocently replied.

EASTERN DISPATCHES!

Swimming Test.

LONDON, April 10. At 4:20 o'clock this morning Paul Boynton started from Dover to cross to France, in his life-saving dress and at 7:15 was 14 miles out, with Cape Grisney in sight, going along finely, in good spirits and smoking. The press boat accompanying him is laying a telegraph cable as it progresses.

John Jay, the U. S. Minister at Austria, has sailed for the U. S.

Fire.

MEMPHIS, April 10. A fire at Greenville, Miss., on Thursday morning, destroyed a number of factories, stores and dwellings. Loss \$50,000.

Ku Klux.

MEMPHIS, April 10. The Gibson county Ku Klux were acquitted in the U. S. Circuit Court to-day. Judge Ballard recommended their discharge, as the evidence failed to establish their guilt.

Banking.

NEW YORK, April 10. Bank statement shows as follows: Loans decrease \$1,291,400; specie increase, \$4,839,000; legal tenders decrease, \$1,416,900; deposit increase, \$1,017,000; circulation increase, \$68,300; increase in legal reserve, \$3,197,700.

A carriage and span of horses were presented to-day to Cardinal McCloskey by a few prominent Catholics of this city.

Marauders.

NEW ORLEANS, April 10. John Nolt, Deputy Collector of Customs at Rome, Texas, reports officially to Col. Hayes, the Collector at Brownsville, that a party of from 30 to 40 Mexican robbers are on the way to the interior of Texas, and have surrounded the town with the intention of robbing the Custom House, but a company of U. S. soldiers, under Captain Bryors, fortunately being in town the Mexican fled.

Suicide—Etc.

NEW YORK, April 10. Col. Jno. M. Powell, of Mississippi, who committed suicide yesterday, was previous to the rebellion, one of the wealthiest and most influential planters in Mississippi. Wendell Phillips once remarked of his estate that "cotton and slaves grew spontaneously on Powell's plantation."

In the Assembly yesterday a bill to permit a wife to testify for or against her husband in civil actions and criminal trials was reported back adversely by the Judiciary Committee and the report agreed to similar disposition made of Speaker McGuire's bill, allowing the wife to testify against her husband or in behalf of another person in cases of crim. con. It is probable no more efforts to alter laws of evidence in any way that would effect the Beecher trial will be made in the Assembly.

Failures.

HALIFAX, April 10. T. and E. D'Wolf & Co., commission and shipping merchants, have failed. Liabilities reported \$159,000.

Offensive Appointment.

MADRID, April 20. The head position in the Madrid University has been accorded to La Fuerte, formerly an editor of the Carlist newspapers. No Liberal would accept the post. There is much dissatisfaction at the appointment, and the students are signing a protest the Government.

WESTERN DISPATCHES!

Apaches.

Fresno, April 10. Special Indian Commissioner here to-morrow for

the Chiricahua reservation. He feels confident of removing the Apaches from there as easily as from Verdi. Late news from San Carlos reservation shows that Agent Clum has completely disarmed all Indians there and they have submitted peaceably to the strictest discipline, including a complete count every morning. They earn by labor about every article they get from the agent. Crops look well.

Ex-Senator Cole—Pacheco Recovering

SACRAMENTO, April 10. Ex-Senator Cole left for Washington to-day to adjust certain Alabama claims in which he is interested.

Gov. Pacheco is rapidly recovering from his recent severe illness.

Sentenced—Elected.

At the Annual Church Conference to-day Brigham Young was elected Prophet, Seer, Revelator and President.

More Victims.

SAN FRANCISCO, April 10. Richard Richards, a victim of the late explosion, died this morning at St. Mary's Hospital. The President of the Giant Powder Co. furnishes a communication stating with reference to the statement of Green, the eye witness who saw the spark from Clark's pipe ignite the powder in the box, which blazed up and immediately thereafter exploded; that Giant powder will never explode, either by contact with fire or by concussion or jar, but only by a fulminating cap used for the purpose and offering as the theory of the recent explosion that when the powder blazed up the fire was communicated to one of the gunpowder fuses already capped for use, the detonation of which caused the disaster. Further facts will doubtless be developed at the confirmation of the inquest this afternoon.

More Men Found

SAN FRANCISCO, April 10. It is now accepted as a fact that a sailor from the ship Wellington and a man whose name is unknown were among the killed in Haas' saloon. Clark's watch was found in the ruins to-day having stopped at 3 1/4 o'clock.

ROBBERY.—Yesterday morning between 9 and 10 o'clock L. L. Climer of Sierra Valley, was stopped by a highwayman while he was coming down from Virginia City. The robbery took place almost three miles this side of Virginia. Mr. Climer was driving a two horse wagon when he was stopped. He had just sold some horses and had converted most of the money, \$1400, into checks, keeping only \$56 of the amount in coin. The foot pad, who was an Irishman, seemed to know of all this and had evidently followed him with the intention of robbing him. The robber told Climer that he wanted the coin only, as the checks would be of no use to him and only lead to his detection. When he got the \$56 he left and Mr. C. came to Reno. Here is a chance for the officers to capture this road agent. Go for him, and make him think that it's not so funny to be an agent any more, if it ever was.

BLOODED STOCK.—Sol. Geller, everybody knows Sol., is in a new business. He has been down in Alameda county and bought up a number of blooded bulls and cows, and has them now down at the Truckee Stables. They are of the short-horned Durham breed. Ten of them are thorough-breds and seven graded. They are fine animals and Sol. is justly proud of them.

WOOD.—The wood-drive on the Carson river is now going on successfully. One drive of about 1,000 cords, under the management of Hon. J. W. From six to seven hundred cords of wood is now landed daily at Empire, and the Empirics are consequently happy.—Appel.

Although the globe was frozen solid he thawed it out and two of the fish are now as lively as ever. The third goes about feebly on its side and will probably die.

THE THOROUGHbred TROTting
 STALLION

RIFLEMAN!

Will stand the present season at Longley's Ranch six miles south of Reno, Nevada, season commencing April 1st and ending July 1st, 1875. Terms of service thirty-five dollars, payable in United States gold coin, before the close of the season.

Description:
 Rifleman is a beautiful bay, 15 1/2 hands high, and is the handsomest horse and the best bred trotter in the State. He has as much Messenger blood in his veins as Smuggler, the champion stallion of America, that won the Stallion Race, at Boston, in 1870. Rifleman's colts are all very stylish and large and show fine trotting action. I will show his colts Morgan Chief at the next State Fair against any colt of his age west of the Rocky Mountains. I will also give a premium of \$50 to the best sucking colt from Rifleman that is shown at the State Fair next Fall.

Pedigree:
 Rifleman was sired by the Thoroughbred Stallion Rifleman and he by Imp. Glenora, dam by Rudolph, out of Butterfly by Sumpter. His dam was the Thoroughbred mare Lady Davis by Red Bill by Modoc and he by American Eclipse out of Miller's Damsel by Imp. Messenger. I have good pasturage at \$4 per month for the accommodation of mares from a distance. I take good care of mares, but will not be responsible for accidents or escapes should any occur. No mares delivered until all charges are paid.
